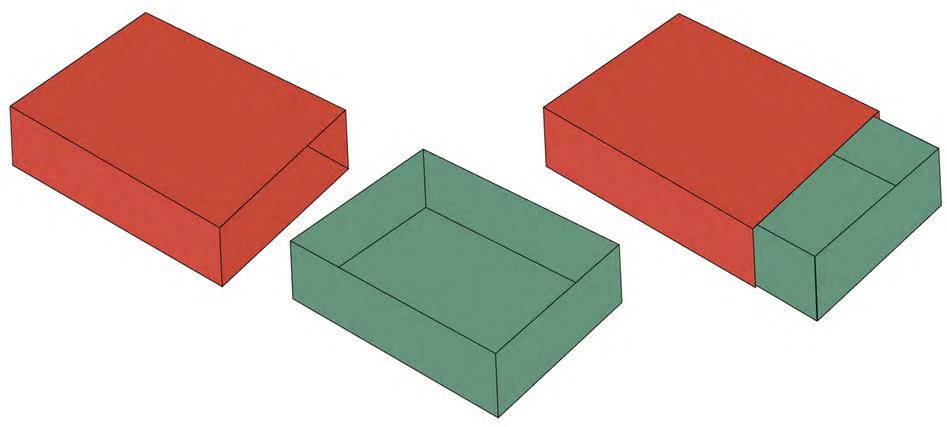
# DIELINE ORIENTATION GUIDE

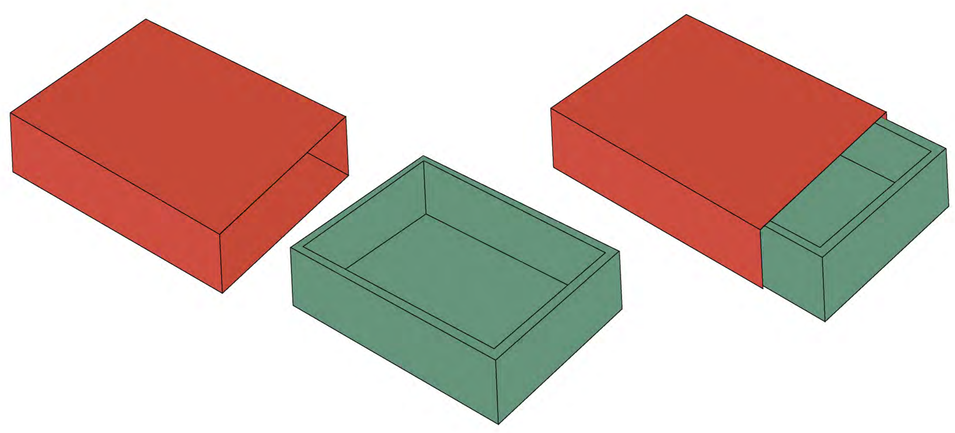
## FOLDABLE TRAY AND SLEEVE BOX

Foldable tray and sleeve boxes are made up of 2 parts: the sleeve and the base tray. The tray can either be thick walled or thin walled.

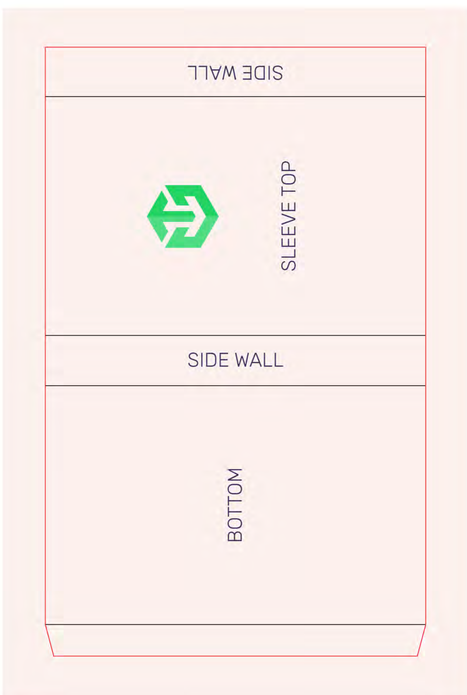
### FOR THIN WALLS



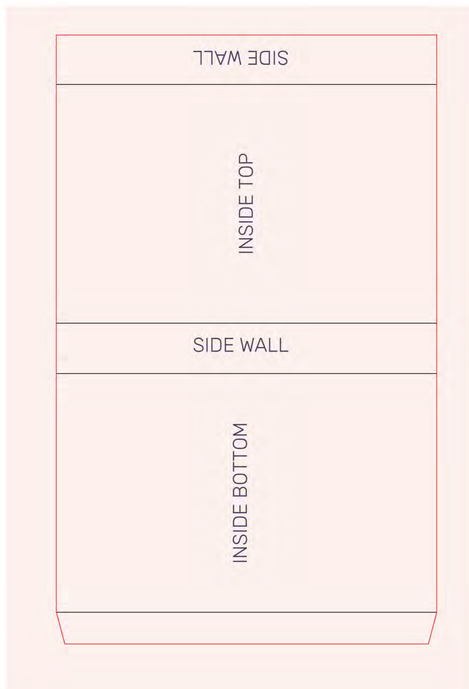
### FOR THICK WALLS



### SLEEVE (OUTSIDE ARTWORK)

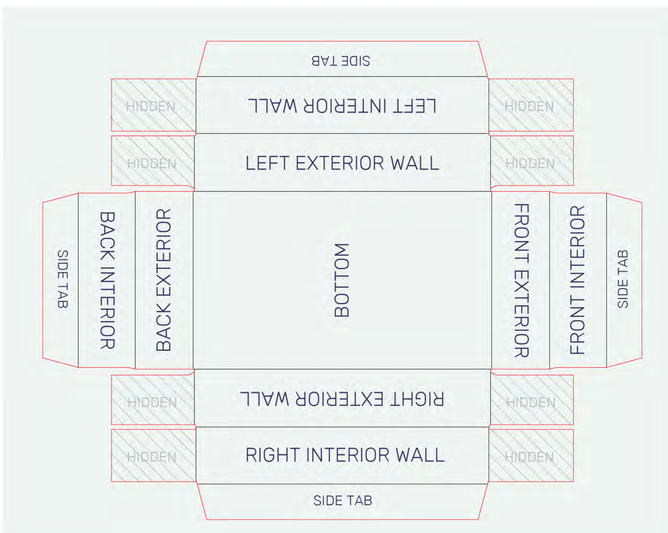


### SLEEVE (INSIDE ARTWORK)



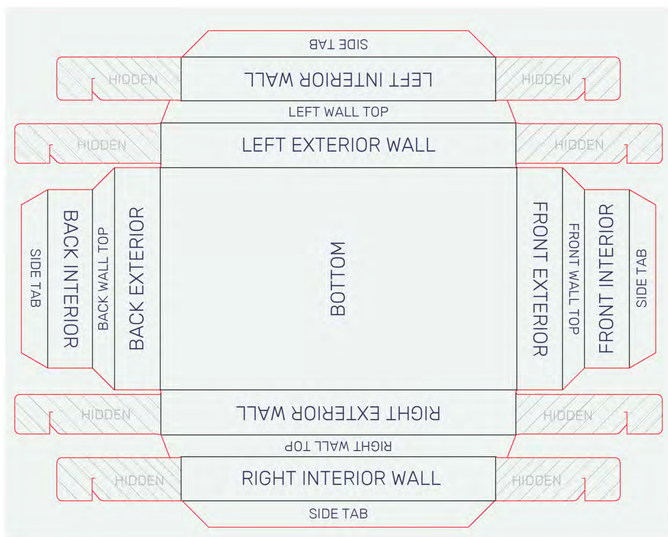
Note: since it's hard to see designs inside of the sleeve, we would suggest only adding solid colors or patterns instead of text.

### THIN WALL TRAY (OUTSIDE ARTWORK)

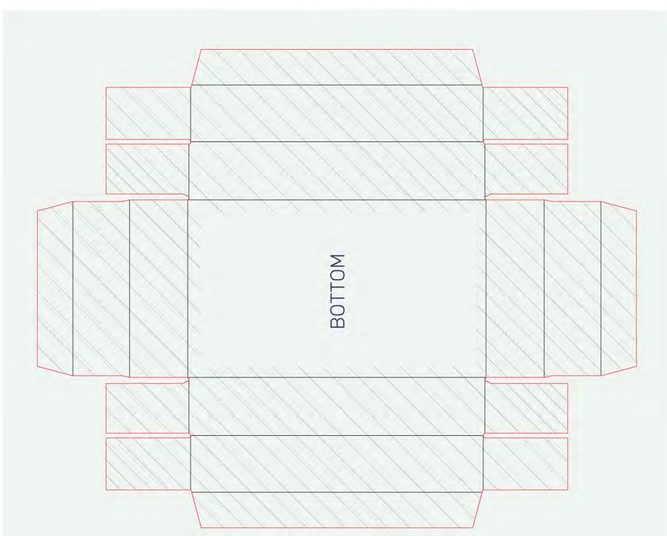


Note: After assembly, side tabs will rest on the bottom of the interior of the tray and will thus cover parts of the bottom interior design.

### THICK WALL TRAY (OUTSIDE ARTWORK)



### THIN WALL TRAY (INSIDE ARTWORK)



Note: Due to the assembly of foldable tray and sleeve boxes, inside artwork will mostly be hidden or covered. We would suggest only adding solid colors or patterns.

### THICK WALL TRAY (INSIDE ARTWORK)
